NOTICE.

THE VICTORIA STANDARD, DAILY AND WEEKLY, is the Largest Newspaper Published in the Colony, and is printed on the Best Paper, it Pays More for the Latest Telegrams, than any other Journal North of the Tropic, has the Largest Circulation, and Largest Advertising Agency. It advantages Advertisers and Subscribers are therefore apparent. The Job Printing Office of the STANDARD, is equipped with every facility for executing Printing in every branch handsomely, and at the lowest rates.

SHIPPING INTELLIGENCE.

PORT OF VICTORIA, BRITISH COLUMBIA.

ENTERED.

May 10—S.S. Eliza, Middleton, Sanich, Star Enterprise, Swanson, New Westminster.

CLEARED.

May 10—S.S. Hilda Middleton, Sanich, Star Enterprise, Swanson, New Westminster.

PASSENGERS.

Per Star Inland, Feb. Yule, Stead—J. Desowitz, C. Jones, K. Brown B. Smith, A. Stone, J. Barry, N. Bunker, H. Goldsmith, K. Campbell, C. Pacey, H. Moore, E. Davis, W. B. Hopkin, H. Eistery, T. Davidson, K. Lurie, M. Wilcox, A. Williams and 10 Indians, 5 Chinamen.

Auction Sale To-Day.

J. P. DAVIES & Co., Wharf Street.—Will Sell at the residence of Mr. Lottice Household Furniture.

Confirmation of the News from Omineca.

By a telegram received by Mr. E. Marvin, last evening, from Dr. Trevor of Quesnell, our special telegram is confirmed. It reads:—"Omineca express arrived to-day; diggings struck eight miles up the creek; prospecting forty dollars a day to the hand. Everything looks promising."

Court of Assize—Third Day.
(Before His Honor The Chief Justice.)

THURSDAY, May 18, 1891.

Regina vs. Ah Sam—A charge for felonious injury by cutting and wounding with intent to do grievous bodily harm. This was a counter charge against the prisoner for being concerned in the fight at the Chinese gambling house on Cumberland street.

The prisoner was the prosecutor in the case of Wednesday, and the prisoner of Wednesday was prosecutor in this case.

The Attorney General and Mr. Robertson instructed by Mr. Justice, appeared for the prosecution, and Mr. McCreight, instructed by Mr. Bishop, for the defence.

Ah Sou, the prosecutor, was first called upon to examine the prisoner in the gambling house at the night of the 10th of February, when the fight took place, in reference to some money owing him; the prisoner, Ah Sam, said some rough words to him, and as he would kill him; they had a scuffle, and during the same Ah Sam gave him two cuts on the hip and one on the fore arm, with a large knife. The knife produced in Court was the knife used. After he was stabbed he was insensible and did not know anything that occurred afterwards.

Cross-examined by Mr. McCreight.—The house was generally open late at night; was not a gambling house; the money he was owing him was not a gambling debt, but money borrowed; the money was owed to Ah Qui—A brother of Ah Sam's—who he accused of being a witness that Ah Sam was during the fight and with a knife, did not know that Ah Sam was cut till the next day; did not see any knife in the room, except the one that Ah Sam used.

Dr. Helwick testified to being called in to go to examine the wounds of Ah Sou. He saw two, one on the right hip and one on the fore arm. The wounds were not dangerous.

AH HUNE, and several other Chinese witnesses, were examined, their statements were taken, and all were in agreement.

Mr. McCreight opened the case for the prisoner in a masterly manner, and called Sergeant McMillan, who testified that he went to the house on the evening of Friday the 10th of February, and arrested the prisoner, Ah Sam, and Ah Sou, both parties admitted having cut one another; they wished him leave them alone to settle it among themselves.

Inspector Bowden stated that he knew the house, had no doubt that it was a gambling house, and Ah Sou was the gambler.

Mr. Robertson addressed the jury, and a jury on behalf of the Crown, in a brief speech.

The Chief Justice summed up briefly, referring, as in the case of Wednesday, to the fact that the prisoner had been found guilty of unlawfully cutting and wounding.

The Chief Justice thought that as the prisoner of Wednesday got off, and as the case were very similar, justice would require a fine and imprisonment.

Fined \$200; in default, imprisonment six months.

Regina vs. Harry—This was a charge brought against a Chinaman Indian named Harry, who while drunk shot at an Englishman, who was sitting at a table. The prisoner pleaded guilty through his counsel, the prosecutor, the husband of the woman who was wounded, was questioned through an interpreter, by the Chief Justice, and although he did not feel obliged to admit that he had shot at the woman, he was found guilty.

The Chief Justice sentenced the prisoner one year's imprisonment.

Mr. Robertson, instructed by Mr. Court appeared for the defence.

The Court closed the list of the criminal cases. The Court then adjourned till 11 o'clock to-day.

FACTS IN CONNECTION WITH THE RAILWAY.

The Illinois Central Railroad received a grant of 2,505,000 acres towards bulking their road. Sales from the lands up to January last, 1869, amounted to \$23,793,255, there remained unsold 2,000,000 acres, which would yield the grant of land have yielded, when all is sold, as much as \$30,000,000, or over \$11 per acre.

Kansas Pacific Railroad sold all its land at an average price of \$3.25 per acre, and the average price of it was \$2.00 per acre, and the Illinois Central, an American desert. Union Pacific Railway have realized on average \$4.46 per acre. Until the Illinois Central was constructed, the Western States were more difficult of access than Mexico is to-day.

FROM THE EAST COAST.—The steamer James Douglas, Captain Clarke, arrived night at half-past nine o'clock, from Nanaimo and way ports, bringing twelve passengers among whom were Messrs. Holmes, Bell, Ross, Ben. Mr. Aiken and Father Seg. Captain Clarke reports very rough weather the passage, which obliged him to anchor at Nanaimo for several hours. The steamer arrived at Nanaimo yesterday morning at 6 o'clock. The ship Atlanta had at Nanaimo from San Francisco, and loading coal for that place. The schooner Mayer sailed from the wharves, New Westminster, for Nanaimo, with a cargo of stone, on Wednesday evening.

CONFEDERATION.—HAVING become an accomplished fact almost as far as the northern portion of the continent is concerned, measures to inaugurate a similar government in the southern portions of the continent, and the East Indies are in preparation. Mr. Gladstone proposes to confederate British Honduras with the West India Islands, including the Bahamas, and Turk's Island, Jamaica, Virgin Islands, St. Kitt's, Nevis, Barbadoes, Antigua, Montserrat, Dominica, St. Lucia, St. Vincent, Grenada, Tobago, and Trinidad, which together have an area of 16,165 square miles, and a population of 969,556. The commerce, including both exports and imports, of Jamaica, Barbadoes and Trinidad amounts annually to some three thirty millions of dollars. The proposed confederation is being popularized, having some 970 souls to the mile, and proportion to its area it raises more than any of the other colonies.

DECREASED WIVES'S STAFF.—The House of Lords, for the sixth time, has rejected the bill legalizing marriage with a deceased wife's sister. As an "indignation meeting" on the subject was called on a requisition signed by any influential supporters of the strangled bill, was held in London, and proceedings as very demonstrative and noisy. Resolutions in accordance with the views of the requisitionists were adopted, an attempt to amend the bill was abandoned, and the bill finally failing. The antagonism to the bishops maintaining their seats in the House of Lords, which seems to be gaining ground in England, found expression at the meeting, and an amendment, requiring the removal of the bishops from the House, was submitted, and divided the vote, the chairman, Mr. Thomas Chambers, P., being "heartily booed" for declaring it to be lost.

SWEARING A CLEVERMAN.—Some little excitement was created, says the London *Canada Advertiser*, in our Police Court the other day by the Rev. Mr. White, a catholic clergyman, who was called on a requisition signed to make the required oath on the Protestant version of the Bible, and by Police Magistrate Lawson refusing to let him swear on the Jewish version. Crown Attorney Hutchinson, who was called on for the prosecution, said that he was called on in the witness box in the case when the Magistrate, and so the matter was deferred for four or five days to give him an opportunity to wade through the Statutes. We understand that he has since discovered that the law supports Mr. White, and was surprised the fact will be duly announced in the court.

PURE SOUND "SCRAM."—"From our very facetious and witty contemporary the P. T. *Messenger* of the 10th we clip—Clancey now holds the position Tom Stratton occupied on the steamer *Belcher*. Tom has been appointed to the *Belcher* in the N. P. Railroad, and Capt. J. H. Smith, U. S. A., and family arrived here on the California. Capt. Smith is sent out by the government to take charge of the military station at the head of this bay. Lieut. W. H. Hand arrived in the California, and was ordered to revenue cutter *Reliance*. Col. Briggs, late deputy collector of customs, wife and child returned on the California. Olympia was visited by a severe hail storm on Wednesday. Twenty-five cents a pound is being offered for wool in that town.

STAGE ROBBERY.—The Los Angeles stage was stopped and robbed three miles this side of Salinas river, by three unknown men. Wells, Fargo & Co.'s iron safe box was broken open; but no coin was found in it, except a letter, valued at \$20, which was taken away. Bills and correspondence were left untouched. The Germania Life Insurance Co. receipts were torn. The passengers were notified to get out of the train as soon as they could. Their regards to Mr. Mull, Wells, Fargo & Co.'s agent. No clue to the perpetrators. A reward of \$100 each for their arrest and conviction has been offered by Wells, Fargo & Co.—*Portland correspondent.*

REGISTER YOUR VOTE.—Any one accepting a shop, a house, a cabin, or any premises either part or the whole of a building, large or small may register his vote, even though he is not a citizen of the State. He has to do so to assert that it is worth \$40 per year. An apiece almost is worth that amount. The collector for this city has undertaken to tell the voters that an occupant must show to the collector the receipt of the assessor, and should have his meddling contrary to the letter of the State.

BEUGLY.—The shop of Mr. George H. Maynard, boot maker, Fort Street, was entered last evening shortly after dark, and while the proprietor was absent for but a short interval. Nine dollars in cash were stolen from a drawer in the rear of the premises. The power from the constables attending the burglary, naturally thinks the entry was made by those who were acquainted with the ins and outs of the shop. Strange!

FROM PORT TOWNSEND.—The steamer *Isabel*, Captain Starr, arrived last evening 8:45 from Port Townsend, with fifty passengers, none of whom intend to go to the city. She will leave for Nanaimo at seven o'clock this morning and return here on Saturday.

"INCREASE AND MULTIPLY."—On Sunday last, at the afternoon service at Christ Church, the Dean administered the rite of baptism to no less than nine children. What between parents, sponsors, friends and the babies they were almost a congregation in themselves.

IMPROVEMENTS.—The naval cricket ground situated close to the Half-Hay House, Hospital road, is being fenced around. Mr. Doran is erecting a substantial dwelling house and business premises, on the road between above and the "Horse and Jockey."

PRACTICAL JOKING.—Some mischievous youngsters are viewed a wire, and so ladies passing up after dark were tripped. Possibly those youngsters might be caught if Professor Bowden were to caution them.

The Daily News mentions the appointment to be Chief Justice of the Bermudas, of Thomas Lett Wood. Major General J. Henry Lefroy, R.A., C.B., is appointed Governor and Commander-in-Chief of the Bermudas, or Somers' Islands.

FOR SAN FRANCISCO.—The schooner *Starbush* has completed her loading being lumber, and is now taking a deck load of hatches. She will probably sail for Francisco to-morrow.

POLICE COURT.—A white man was yesterday fined \$10, for striking a squaw across the face. Jas. Neid, charged with stealing from Mrs. Cameron, was again remanded for ten days.

[The steamer G. B. Wright will leave Portland direct at three o'clock on Saturday morning, carrying passengers and cargo.]

BOATERS.—Among the shipments per Stags-
head are a large quantity of old bottles,
shipped by Mr. A. Phillips.

FOR SKEENA RIVER.—The steamer Emma,
Captain Holmes, is on the berth for Skeena
river.

THE COURT OF ASSIZE will sit at 11 o'clock
to-day, for the purpose of trying civil cases.

Drowning of Oliver.

ERROR STANDARD.—Some errors appear in
the papers this locality with regard to the
name and nativity of the unfortunate man
who was drowned in the Skeena river; and
we conceive it to be our duty to give cor-
rect information, in such a case, when we
are right in our premises. We beg to state,
at all times, that the deceased was known in
this town as he had a good farm, by the
name of Oliver, such was not his name.

When the deceased came from Comox, on
his way to Skeena, he staid with us, and
at that time, although he was called Oliver,
he would like his right name, which he gave
G. Gundersen, placed on the register of
the house, which was done.

We are almost sure the deceased was
corrected by birth—certainly not mean-
ing as we stated in the *Colonist*. Hoping
you will kindly insert the above for the
information of the relatives of the deceased,
and the public, we are,

Yours, etc.,
Baily's Hotel Langley Street May 18th 1871.
RICHARDS & NORTEN.

The Forty Dollar Qualification.

EDITOR STANDARD.—Will you please to en-
lighten your readers as to the meaning of
that part of the Qualification Act which gives
the occupier of premises of the "clear annual
value of not less than forty dollars per an-
num" a right to vote? Does not mean
rental, but \$40 per annum; or does it mean a
rental which reckoned at 12 per cent, the
legal interest, would be equal to \$40 per an-
num; or has it reference to the actual value
of the property, apart altogether from rental?
If the latter be the case, that a person pos-
sessing a rental of only \$40 per annum will be
qualified to vote, for the annual value of \$40
at 12 per cent. would be but \$4.80. In
order to qualify under that clause it appears
me a tenant would require to say a rental
of \$26 per month, which at 12 per cent.
would exceed \$40 per annum by only thirty-
two cents. Your opinion on this interesting
subject will oblige

AN INQUIRER.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DISPATCHES.

BRITISH COLUMBIA.

QUEBEC, May 17.—The *Unionna Express*-
man arrived here to-day.

A private letter dated April 20th, written
by a miner on German creek states he has
discovered a prospecting eight miles up the creek,
and Kelly and J. Stevens had struck a good
prospect as high as one dollar and fifty cents
to the pan, on the surface of the creek. It
appears to be on the surface of the bed of
the creek, but we do not know yet what it is on
the bed rock, but we think the chances are good.
Kelly is putting in a wing dam and will be
working in a few days.

Ice and snow is going away rapidly.
Grain is scarce and if the rains do not ar-
rive in a few days, many of the miners will
have to go & meet them.

All the beef that was left here last fall is
sold.

Several letters have been received corroborat-
ing the above statement.

As high as two dollars and a half was
taken to the pan.

EASTERN STATES.

WASHINGTON, May 17.—In the Senate to-
day, in discussing the bill for the *Prison*
correspondent, Morrill of Vermont said he
had no doubt the facts, when discovered
would implicate some Senator, at least or
carelessness. Fenton's substitute was re-
jected by a vote of 21 to 35. The pending resolu-
tion, adding words to be answered by writ-
ings, touching the disclosure, directly or in-
directly, through any member of the Senate
or officer employed there, of what purports
to be a copy of letters to or from the Sen-
ate, was adopted by the Senate in the Execu-
tive session. The amendment was agreed to
yesterday, 28, 28. Summer thought the Sen-
ate had gone far enough with the matter and
had better now abandon it. The resolution
of Carpenter was adopted by the Senate.
Mr. White was then brought from the sec-
retary's desk, and when the Vice-President
propounded the question to him, he said he
was not prepared to answer, and asked that
he be given until the next day. The ques-
tion was then granted, and a similar
course was taken with Ramsdell. Both
were then released on parole to appear to-
morrow.

EUROPE.

PARIS, May 17.—This afternoon, the gates
of Auteuil and Versailles were destroyed by
bombardment. The neighboring bastions
are silent under a terrific fire.

Isay is now in the hands of the Versailles
troops. They bombard Petit-Vauxres, Gonesse, and
Font Dajour. The latter position is unten-
able.

It is believed the Versailles are destroy-
ing the walls, near Meuthe gate.

Disensions continue among the Commis-
sioners of the Commune.

PARIS, May 17.—A terrific explosion
occurred this evening, in the eastern portion
of Paris, in the direction of Avenue du Tri-
cadero. The effects can be plainly seen
here. It is believed a powder magazine was
the cause of the explosion. The Versailles
the Versailles batteries at Neuilly.

LONDON, May 17.—Later dispatches from
Paris say, the Versailles occupying the vil-
lage of Mondon have been cut off from com-
munication with the metropolis, and are
greatly distressed and captured.

The insurgent troops have returned from
Petit-Vauxres and Montrouge to the city.

MADRID, May 17.—Loret, Minister of
Finance, has presented the Budget to the
Cortes. It exhibits favorably, and was re-
ceived.

PARIS, May 17.—There was a tremendous
explosion at the fall of the column of Vendôme
this p.m.; the fall was announced for
this p.m. All the balconies in the Place Ma-
dame were crowded. The Rue de la Paix
and the Rue de la Concorde were also
crowded. The explosion was so violent that
the Commune was intense. Rochefort appeared,
giving him loud cheers. Soon all the
arrangements were completed; bays sounded
the Column, like the note of defiance, was
sounded. The cable was stretched and
tightened. The column stood firm, the
lass broke and the pulley fell into the
air and descending, struck a sailor and wound
him. After this accident, Abadie declared
needed two hours in which to repair the
cable. The report having agreed that the
Column would fall at a quarter past 5 o'clock
was given out that the Column would
not fall before 7 o'clock. A general ex-
pression of disapprobation was thought
crowd. The Versailles Government, and the
cable of the Versailles Government, and the
suddenly the vast column moved and was

Vive le Commune, and the band played the Internationale with great effect. The speaker was the glorious Commune splintered into pieces; its bronze and masonry in masses; statue of the Emperor several feet from end of the column, with the head knocked off. The crowd rushed forward to collect fragments and relics, and the guards were unable to resist the rush. Orators commenced speeches, and indulged in all kinds of extravagant language. The statue of the Emperor was treated as if it was the Emperor himself, and was pelted with stones in his face and hands, and with the rifles.

Paris, May 16.—Communists made a sortie last night, but were driven back with heavy losses.

On 17th, the Parisian people, with chemical preparations have been made to completely annihilate the Versailles when they assault the ramparts.

There was a vigorous engagement under the ramparts this evening. The Versailles lost 100 men, and the Parisians 200. The Commune has a reserve of 200,000 men.

The Versailles have effected three practicable breaches, and massed large numbers of troops within 50 yards of the ramparts.

Loss of life and property by the bombardment in the American quarter to-day is fearful.

VERSAILLES, May 16.—The Assembly to-day refused to constitute a motion declaring the Republic permanent.

LONDON, May 17.—A special says the Versailles will probably carry the city to-night. The Commune are flying.

PARIS, May 16.—Evening.—The column in Place Vendôme levelled at 6 p. m. The square will henceforth be known as the Place International.

It is reported that Montroigne is taken.

Republicans in the Assembly presented a motion appointing Thiers President for two years.

Trains leaving Paris are examined.

Petroleum owners have been ordered to report to the Commune.

MONTROIGNE, May 17.—The Parisians hold Montroigne.

VANVRES is unoccupied.

The Versailles are pressing on the city.

Louis Blanc goes to America after the Assembly adjourns.

Canada.

HALIFAX, N. C., May 17.—The elections, which were held yesterday, indicate a slight gain to the Government or Anti-Confederate party.

OTTAWA, May 17.—The Cabinet have not yet settled as to who will be Governor of British Columbia.

Bank of British Columbia.

The half-yearly general meeting of the proprietors was held on the 11th of April at the London Tavern.—Mr. T. W. L. Mackenzie was the chair.

Mr. Hanson, general manager, having read the report of the directors, the meeting, and the report and accounts having been taken as read.

The Chairman said he wished to make one or two remarks with regard to the accounts. In the first place, he would observe that the dividend which at the last meeting were stated to have been reduced by £200 now showed further reduction of £400. He did not say they might go down any lower. Possibly they might rise a little, because as yet the directors had not decided as to some £500000 in arrears of salary; but the directors would do all in their power to keep down the working expenses. (Hear, hear.) The amount of cash and bullion was a little more than it was at the end of the previous year, and the directors were glad to see that some gold having come down from British Columbia to San Francisco in transitu, the loans had increased in amount owing to the increase in the business. The Government securities remained unchanged, and the directors were glad to see that the notes in circulation had augmented by nearly £7,000. The amount was not so large as the directors could wish it to be, being, in fact, £2,800. The deposits showed a rise of about £200,000, and the directors were glad to see that the £500,000. At the last meeting he mentioned that the Dominion of Canada was about to take British Columbia under its wing. A telegram had been received from Ottawa, dated the 31st March, which was to the effect that the Dominion of Canada had confirmed the result of the negotiations with British Columbia for the admission of the latter into the Dominion, including a sale of the agreement as to the construction of a Pacific Railway. The directors were glad to see that the result was satisfactory; but there were other public works to be carried out which would tend to the prosperity of British Columbia, and although there was no terminus fixed for the railway, there could not be the least doubt that the directors were glad to see that the stations in British Columbia, handling such a fine harbour as the Esquimaux harbour close to it. As regarded the landed estate, there had been a loss up for many years, but the board had now decided to raise the value of the land, and the directors were glad to see that the result would be realised; but in the meantime, having regard to the uncertainty in the value of land, they thought it best to reduce the account by £10,000. (Hear, hear.) The directors were glad to see that the result was satisfactory. On the 7th March their manager at Victoria wrote: "Within a few weeks from the present time the spring trade with the upper country will be fairly open, and the directors are glad to see that the result is satisfactory. A legitimate demand for supplies may be fully realised." At San Francisco they were holding their own, and the business was rather increasing. On the 6th of March the manager at Victoria wrote: "The business is rather depressing effect on business," a fact which must be known to all who were engaged there. Then, from Portland on the 13th February the manager wrote: "The Northern Pacific Railway—a railway which would be a great boon to the trade between the Pacific coast and New York—is now well in hand, and the company expect to have 2,000 men at work on the section between the Columbia River and Puget Sound within a few weeks. The directors are glad to see that the result is satisfactory. On the 7th March their manager at Victoria wrote: "Within a few weeks from the present time the spring trade with the upper country will be fairly open, and the directors are glad to see that the result is satisfactory. A legitimate demand for supplies may be fully realised." At San Francisco they were holding their own, and the business was rather increasing. The directors are glad to see that the result is satisfactory. On the 7th March their manager at Victoria wrote: "Within a few weeks from the present time the spring trade with the upper country will be fairly open, and the directors are glad to see that the result is satisfactory. A legitimate demand for supplies may be fully realised." At San Francisco they were holding their own, and the business was rather increasing. On the 6th of March the manager at Victoria wrote: "The business is rather depressing effect on business," a fact which must be known to all who were engaged there. Then, from Portland on the 13th February the manager wrote: "The Northern Pacific Railway—a railway which would be a great boon to the trade between the Pacific coast and New York—is now well in hand, and the company expect to have 2,000 men at work on the section between the Columbia River and Puget Sound within a few weeks. The directors are glad to see that the result is satisfactory. tor as the capital of the colony, the great of business (consequent on the great success attending gold and coal mining) that they confidently look for, the directors that that eventually no serious if any loss this source will be sustained."

Shareholders asked whether any portion had been sold in land. "Ultimately a considerable portion of the money—he wished to ask not ungraciously but guardedly—might be recouped; but the effect had been that it will now they had had £40,000 of capital at the disposal of the directors. The directors had thought it desirable to meet it question for two reasons—first, that it prudent to lay by when they had the opportunity and means of doing so, in order to meet any contingencies that might arise immediately in the realisation of the property; secondly, that following the course recommended would contribute towards reaching the £40,000 to work with again. He did not believe that the proprietors, if they were looked up in land, would be helped if he had been explicit—would not command and endure the views which the directors, after due care and consideration, had adopted. (Hear, hear.)"

Mr. Simpson considered the explanation on that point very satisfactory, but hoped that the earnings, which now amounted to about per cent. on the capital, would be increased. He also thought that it was desirable to introduce new blood into the Direction. The report was then adopted, and the dividend and bonus as recommended declared. The Chairman having proposed Mr. Gillespie's re-election, and the motion having been seconded.

Mr. Gillespie said he agreed with Mr. Simpson that it was desirable to have fresh blood in the Direction. In his opinion it would be beneficial to the Bank if gentlemen who were connected with the trade of the colony were to become members of the Board, and he should be very sorry to vacate his own seat in favor of any person occupying that position. (Cries of No, no, no.)

Mr. Gillespie was then re-elected, as were also the Chairman and the Auditors.

Mr. Cable, seconded by Mr. Murrell, then votes were voted to the Chairman and the other Directors, and the meeting on separated.
